

BUSINESS ADVISORY COUNCIL

At Palouse Land Trust, we believe that our quality of life is our region's most valuable economic asset—and local business owners agree!

- 97% of local business owners surveyed agree that access to outdoor recreation is important to their employee recruiting and retention efforts.
- 90% feel that increased access to outdoor recreation would have a positive impact on their ability to recruit and retain employees.
- 88% believe that permanently conserving iconic local landscapes would also support their recruiting efforts.

OUR GOALS SUPPORT YOUR GOALS

For over 25 years, the Palouse Land Trust has been working with local landowners in three key areas:

- Creating opportunities for the public to experience and enjoy natural spaces, first hand.
- Conserving iconic local landscapes, and the plants and animals that rely on them.
- Ensuring that the working farms, ranches and forests in our region can continue to operate, for generations to come.

In short, our work supports some of the biggest reasons that people choose to build their lives here
