

Conservation Heroes Program

Simple. Secure. Sustaining.

Land conservation is big. But the contributions and support that make it all possible don't have to be. **Everyone can have a heroic impact on the lands we love across the Palouse and north-central Idaho by joining our extraordinary league of Conservation Heroes.**

Conservation Heroes provide stable, year-round support to enable more families across the region to permanently protect land that means so much to all of us. Monthly gifts guarantee that we can work together to create meaningful conservation solutions that benefit the entire community, now and for generations to come.

Heroes play a vital role in connecting more people with the magic of nature at Idler's Rest, ensuring that the next generation of conservation leaders are inspired advocates for the land, and in protecting the very best of the Palouse: our fertile working farms and forests, healthy wildlife habitat, open spaces, and special ecosystems like the native Palouse Prairie.

Becoming a Hero for the lands we love is easy and convenient - **you can sign up for safe, secure recurring gifts on our website atpalouselandtrust.org/conservation-heroes**, or use your bank's secure online bill pay feature. WSU or UI employee? Enjoy the ease of automatic salary deferrals and know that you're making a difference each and every pay period.

Discover the Hero in **you**. Become a Palouse Land Trust Conservation Hero **today!**

Conservation Heroes don't just provide a steady, dependable stream of support throughout the year. They help build the trail to longevity and sustainability of Palouse Land Trust and the permanent protection of the lands we all love so much.

Heroes make so much possible each and every day through one simple, monthly contribution. Here are just a few examples of the power of your investment in the Land Trust:

**\$20/
month**

Ensures active habitat, parking area, trail, and amenity care and maintenance at Idler's Rest Nature Preserve and supports educational, wellness, and other activities throughout the year.

**\$35/
month**

Connects land trust staff with area youth to provide educational programming and events on conserved properties to inspire the next generation of environmental leaders.

**\$50/
month**

Supports the active annual stewardship and monitoring activities on permanently conserved properties across the PLT service area, a key component of perpetual land conservation agreements.

**\$75/
month**

Provides year round management and care of the Dave Skinner Ecological Preserve to prevent weed encroachment and restore and champion the native Palouse Prairie ecosystem.

**\$100/
month**

Fosters existing and new relationships with community organizations, local and regional government, and federal and state agencies to work collaboratively on conservation projects that benefit the entire community, now and forever.
